Subject: Duke power rate increase

I urge you to vote NO on this, People are using LESS power and yet Duke wants a rate increase? Hasn't Duke been telling us to conserve all these years? That make NO SENSE. Duke needs to make due just like the rest of us who are dealing with this economy and all of it's consequences. Lets look at Duke, now what about that building they built in Grenville then later abandoned? Duke needs to tighten it's belt properly manage it's finances and learn to deal with what it has just like the rest of us!!!! South Carolinians are hurting enough as it is, DO NOT add insult to injury!!! NO RATE INCREASE FOR DUKE POWER!
